Volunteer participants are needed for research investigating relationships among thinking patterns, past and present emotional states, weight status, and attention to various aspects of words, statements and others’ facial expressions. The study session will take approximately 3 hours. Participants will be compensated up to $25 for their participation.

Criteria for participation include the following:

- Female
- Right Handed
- Native English Speaker
- At least 18 years old
- Not currently dieting or trying to lose weight
- No history of head trauma resulting in the loss of consciousness
